- Full plant integration from grinding and blending to cooking and packaging.
- Assists with installation and start-up of equipment purchased from us.

## About MPBS Industries

Food Processing Equipment  
Food Packaging Equipment  
Butcher Supplies  
Parts and Service

The Company that was to become MPBS Industries was first established in Germany in 1898 to market butcher supplies. It was re-established by its founders in Los Angeles, California in 1938 as a full-service equipment provider to the meat industry. Today MPBS Industries is a manufacturer and distributor of equipment and supplies for food processors in the United States and around the globe.

Our product lines include items for grinding, mixing, blending, portioning, injecting, tumbling, filling, slicing, smoking and packaging. Equipment sales are supported by our technicians and by a substantial inventory of machine replacement parts. Food plant and butcher supplies (hand tools, cutlery, clothing, material handling, packaging materials) are offered through our catalog sales department.

Our experienced technical staff can assist you in selecting and implementing a single item or a complete production line.
